

Under the Miller System, anyone who doesn't pass their standardized tests is demoted to a life of slavery to the educated elite. Cashiel Michaud is one of the elite. His lover, Sascha, should have been as well, but an impulsive decision to save his less talented brother ultimately made him Cashiel's personal slave. Luckily, Cashiel understands the true value of a brilliant man like Sascha, and put him to work rooting out the dirty secrets of the system that drew them together. It was a risky decision, and one that put them both in terrible danger. Now the news is out about Cashiel's involvement in research to undermine the Miller System. He and Sascha have been placed in separate jails as their high-pressure legal case develops under the scrutiny of the establishment and abolitionists alike. Trapped in a harsh slave facility, Sascha must work blind in parallel with Cashiel's efforts to get them both released, making sacrifices and delicate arrangements along the way. Sascha and Cashiel face numerous threats from the outside world, and some from the people closest to them. They don't know who to trust and their plans and their love are being put to the test. The results of this test could change the world. (M/M)
